SAIL Electromechanical Co., Ltd  
was established in 2011,  
as an elevator and escalator spare  
parts full solution provider in China.

2021 格力电器年度经营会议

2021 Gree Electrical Appliance Annual Business Meeting

Our Factory, which was founded in 1991. It was one of the major professional manufacturers of escalator rollers and plastic parts in the early stage. It always adheres to professionalism, dedication, keeping up with market demand and constantly exploring and innovating. Committed to providing customers with cost-effective products. Supply to Schindler, OTIS, and KONE, with the growth of the technology research and development team, we supply more than 100 kinds of products in 2011, including elevator door system, control system, safety components, human-machine interface, basically included all escalator accessories.

In order to serve the end market, customers with a comprehensive elevator&escalator accessory service solution, dedicated to building service platform which can offer the world's most comprehensive parts. We not only provide our own accessories, but also integrate the elevator&escalator accessory resources through a partnership business model. We have the advantage of strong types of accessories. Now we can provide 6,300 kinds of accessories and become the leader of elevator& escalator accessories in China.

We are in the process of setting up parts libraries and marketing centers in Italy and the United States to deliver products more quickly to customers in different region

The engineers of our team come from well-known companies such as KONE, Schindler, Otis, Thyssen, etc., with the aim of technology serving the market, SAIL has become a leader in the market of elevator&escalator accessories.
